"YOU BECOME WHAT YOU THINK"

SOME QUESTIONS ????

WHAT IS THE MIND ?

Have you ever asked yourself this question? For thousands of years this question has intrigued, amongst others, many philosophers, religionists and scientists. Serious scientific research into the Mind began only over the last 60 years. Latest findings indicate that the Mind plays a greater part in our lives than most of us think – whether for better or for worse. The Mind is linked to our thoughts and attitudes. In fact, we are a by-product of our thinking. We become what we think.

Quote: "The greatest discovery in our generation is that human beings, by changing the inner attitudes of their minds, can change the outer aspects of their lives."

----- William James in "The Principles of Psychology" -----

WHAT IS MIND SCIENCE?

It is simply these recent discoveries about the Mind put into a package for you. It is a science of utilizing one's Mind to the fullest potential. The average person uses only a little of his mind power. Imagine what we can do or become if we learn to use a little more of this wonderful faculty.

Mind Science helps you discover this power 'within' and then utilize it to improve your life. It is a holistic approach to life where your Mind, Body and Spirit work in harmony for a better life – for happiness, success, health, career, relationships and wealth.

WHAT IS THE MIND SCIENCE ASSOCIATION OF MALAYSIA? ("MSM" in short)

A benevolent, non-political, non-religious and not-for-profit society 'made' and registered in Malaysia and committed to sharing the secrets and benefits of the Mind with the world. Founded in Malaysia, it has members in most major cities in the country and in Canada, England and Australia. Membership is open to all who have 'graduated' from courses conducted by the Association.

M.S.M.'s VISION

"A humanity that realizes and utilizes the power of the Mind for its betterment and fulfillment."
